

2025 US Open Ticket Prices - How to Spot a Good Deal?

From: "[A Serious Tennis Fan's Top 10 Tips for the 2025 US Open](#)" (Road to 4.5 Tennis blog)

The top question I get every year: **"Will prices go up or down? Should I wait or buy now?"**

MY TOP ADVICE: Keep checking prices on [Ticketmaster](#) and use my chart and links below to get familiar with average prices for the sessions you're interested in. The more familiar you are with typical price ranges, the better positioned you'll be to spot good deals that work for your budget.

HOW TO SPOT A GOOD DEAL

Below are my rough estimates of what I'd consider a "good deal" (fees included) based on last year's average resale prices. These are not official prices—just helpful benchmarks to guide your search. The US Open doesn't publish "face value" ticket prices and uses "dynamic pricing," so prices can shift frequently. But these numbers should give you a solid starting point to assess whether a deal is worth grabbing.

How to read the numbers in the chart:

- "< \$XXX" means anything under \$XXX is a good deal—this is roughly the lowest price you might expect for a seat in that section.
- "\$XXX-\$YYY" shows the general price range for what I'd consider a good deal in that section. \$XXX is the lower end (a very good deal), and \$YYY is still a good price even for prime seats.
Note: I don't list the high end of possible prices (which can be hundreds or even thousands higher, especially for Courtside Ashe). The goal is to show what a good value looks like—not what the market will bear.
